EDUCATION

SVKM's Dwarkadas Jivanlal Sanghvi College of Engineering

2025 - 2029

Bachelor of Technology- Information Technology

CGPA : 9.04

SKILLS

Languages : C/C++, Java, **Javascript**, Typescript, **Python**.
Frameworks: React js, **Next js**, **Nodejs**, **Express**, **JWTs**, **Redis**, Docker
Backend & Databases : **REST APIs**, **MongoDB**, PostgreSQL, **Vercel**.
Others : **Git**, **REST APIs**, **Scalable System Design**.
GenAI : **RAG**, **Context Engineering**, **VectorDBs**, **Agentic Workflows**

PROJECTS

Palimind

RAG, Python, FastAPI, Electron, Ollama, EasyOCR

[Github View](#)

- Built a **local-first AI OS**, unifying **RAG**, **email**, and **screen-assistant** tools under one **CLI**.
- Engineered a **multimodal RAG engine** with **4-bit quantized embeddings**, agent swarm orchestration.
- Implemented **multi-account email sync** with **AI-drafted replies**, and real-time **screen-to-text OCR** with **vision-LLM Q&A**.

Aerohacks

MERN, Qr.io, WebSockets, JWT, Hugging Face APIs

[Github View](#)

- **AI-powered hackathon management** system (MERN) **automating** registration, teams, and evaluation.
- Implemented secure **QR + JWT authentication** with role-based access for **Admin, Judge, and Participants**.
- **Integrated AI resume & GitHub analysis** for skill extraction and automated team/evaluation insights.

Fintrack

MERN, JWT, Bcryptjs, Recharts, express-rate-limiter, Helmet, Morgan

[Github View](#)

- Built a **MERN-based finance dashboard** with **JWT authentication** and **RBAC** for **secure access control**
- Developed **role-based UI & APIs** for **Admin, Analyst, Viewer** with **protected** routes and permissions
- Implemented **analytics dashboard** using **Recharts** with modular architecture and **scalable CRUD system**

Notedeck

MongoDB, React, Tailwind CSS, Express, Node, JWT, Bcryptjs

[Github View](#)

- Built a secure **MERN notes app** with **JWT authentication**, **protected routes**, and **user-based data access**.
- Integrated **Google Gemini AI** via backend to generate notes securely without exposing API keys.
- **Implemented CRUD, debounced search**, responsive UI, and deployed the full stack on **Vercel**.

ACHIEVEMENTS

- **Codeforces**: Pupil (Max Rating: 1277) | Solved 600+ problems
- **CodeChef**: 2 ★ (Max Rating: 1503)
- Code Uncode **Finalist**
- **Top 28 Finalist**, **Blitz Cup**, **SPIT**
- **Winner**, Foundance Mumbai Hackathon 2025
- **Second Runner-Up**, **ADAPPT 4.0 Hackathon**
- **Finalist**, Zuup Faraway International Hackathon (**top 60 out of 10,000**)
- **2x Hackathon Finalist**
